PROJECTS / OPEN-SOURCE

Amazon Product Reviews using Sentiment Analysis with DecisionTreeClassifier | Link *Python, ML, NLP*

This Project aims at training a ML model such that it classifies whether a review is a positive or negative review with 70% Accuracy using libraries like Pandas,Matplot,Seaborn,SKlearn,nltk,TextBlob.

Diabetes Prediction Using Support Vector Machine (ML) And Python. | Link *Python, ML*

This Project aims at training an ML Model such that it can predict whether the person is having diabetes or not by considering some vital information and using libraries like Pandas,Numpy,Matplot,Seaborn,SKlearn.

CERTIFICATIONS

- Training Completion On AI,ML & IOT - **MSME-Technology Development Centre(PPDC)**
- Internship Completion On Machine Learning in Python - **Pantech E Learning**
- Internship Completion On Natural Language Processing - **MSME-Technology Development Centre(PPDC)**
- Course & Internship Completion On Artificial Intelligence Engineering - **DSIR IETE Ranchi**
- Course Completion On Artificial Intelligence and Data Science - **IDEMI MSME**
- Course Completion On Advanced Power BI - **MSME-PPDC**
- Participation Certificate For Attending Online Workshop on ML - **Coding Blocks**
- Course Completion On Java - **Solo Learn**
- Course Completion on Python - **Solo Learn**
- Participation Certificate For Attending AI Classroom Series - **Microsoft (NASSCOM)**
- Arduino Basics Completion Certificate - **Edodwaja-The Real Education**
- Participation Certificate For Volunteering and Leading in Avinya Fest. - **Telangana Hub (T-Hub)**

- Certificate on Python Essentials - **Cisco Networking Academy**
- Certificate on AI Essentials - **Intel**
- Course Completion Certificate on Robotics,IOT - **Talent Battle**
- Course Completion Certificate on Cloud Computing AWS - **Talent Battle**
